KY HEARS Beyond 2024

We are excited to announce that the KY HEARS program has been approved for two more years. This will allow us to continue providing hearing healthcare throughout the state of Kentucky. We are grateful and appreciative of everyone who has supported our program and welcomed us into their community. Our goal of removing barriers and addressing the disparity in educational and workforce outcomes for those who have hearing loss continues to be our focus as we move toward years three and four.

KY HEARS Launches New Website

We are excited to announce the launch of the updated KY HEARS website. New features include interactive maps of clinic locations, a blog section for current hearing healthcare news, and updated information on the services we offer throughout Kentucky. Please take some time to visit our new website.

<https://kyhears.org/>

Through KY Hears, our efforts extend across the state, ensuring that we can assist a broader spectrum of patients in need of hearing assistance.

A Busy First Quarter

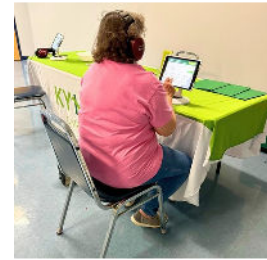

The KY HEAR team spent the first four months of 2024 hosting several clinics and attending health fairs throughout the state. We have enjoyed these opportunities to provide hearing healthcare, resources, and educational information to everyone who has attended one of our events.
